1. Introduction and Scope

This document sets out the Warranty and Service Policy of Gentech ("Gentech", "we", "us"), an online marketplace and retail shop selling PC components, laptops and accessories in Bangladesh. It explains how warranty works, what is covered, what is not, how to return or replace a defective product, and how to make a warranty or service claim. It applies to every product bought from Gentech through the website, the app, by phone, or in the store.

1.1 Products covered

The policy covers all twelve product categories sold by Gentech: processors (CPUs), motherboards, graphics cards, RAM (memory), SSDs, power supplies (PSUs), casings (PC cases), monitors, laptops, keyboards, mice and UPS (uninterruptible power supplies).

1.2 Where the warranty period for a specific product is shown

Every product in the Gentech catalogue has a **warranty** field on its product page, for example "1 Year", "2 Years", "3 Years", "5 Years" or "Lifetime". That value is the warranty period for that exact product and always takes priority over the general category summary in Section 3. The warranty period is also printed on the invoice.

1.3 How this policy relates to other Gentech policies

- **Payment, Cancellation and Refunds Policy** - how and when money is refunded after an approved return or cancellation.
- **Delivery and Shipping Policy** - delivery fees, failed delivery, and procedures for damaged parcels.

> If a manufacturer's own warranty terms are more generous than this policy for a specific product, the more generous term applies to that product. If they are less generous, Gentech still honours this policy for the period shown on the product page.

2. Key Definitions

Term	Meaning
Warranty period	The length of time, counted from the warranty start date, during which Gentech repairs or replaces a covered product with a manufacturing defect.
Warranty start date	The delivery date for orders delivered to the customer, or the invoice date for products collected from the store.
Defective product	A product that does not work as described because of a manufacturing or component fault, not because of misuse or damage after delivery.
DOA (Dead on Arrival)	A product that is faulty or does not power on or work when first used, reported within 7 days of delivery.
Damaged on delivery	A product or its packaging that was physically damaged during transit, reported within 48 hours of delivery.
Replacement warranty	Warranty under which a faulty unit is exchanged for a new or equivalent unit instead of being repaired.
Service warranty	Warranty under which a faulty unit is repaired by Gentech or the manufacturer's authorised service centre.
Lifetime warranty	A warranty that lasts as long as the original purchaser owns and uses the product, within the manufacturer's defined terms. It is not transferable and does not cover wear-out limits (for example, SSD endurance) or physical damage.

Term	Meaning
Serial number (S/N)	The unique identifier printed on the product or its box, used to verify the warranty.
Claim ticket	The reference number issued when a warranty or service request is registered, format WS-YYYY-NNNNN.
Business day	Saturday to Thursday, excluding public holidays.

3. Warranty Terms and Periods

3.1 General terms

- Warranty starts on the delivery date (or invoice date for in-store collection) and runs for the period shown on the product page and invoice.
- Warranty is linked to the original invoice and the product serial number. It may be transferred to a new owner if the original invoice and the product are handed over together; lifetime warranties cannot be transferred.
- Warranty covers manufacturing defects in materials and workmanship under normal use, as described in the manufacturer's manual.
- Gentech may repair, replace with an identical item, replace with an equivalent or higher-specification item, or, where neither is possible, refund the amount paid (see Section 8).
- Replaced or repaired products continue under the remaining original warranty period. A replacement unit always carries at least 30 days of warranty even if the original period has almost ended.
- The time a product spends at a service centre is not added to the warranty period unless required by law or the manufacturer's terms.

3.2 Warranty periods by product category

The table below summarises the warranty periods currently assigned to products in the Gentech catalogue. Always check the individual product page for the exact period.

Category	Typical warranty period	Notes
Processors (CPU)	3 Years	All catalogue CPUs from Intel and AMD carry 3 years. Physical damage to pins or the CPU surface is not covered.
Motherboards	3 Years (most models); 2 Years and 1 Year on a few models	Check the product page; bent socket pins and BIOS flashing damage are excluded.
Graphics cards	3 Years	Applies to NVIDIA and AMD based cards from supported brands in the catalogue.
RAM (memory)	Lifetime (most kits); 3 Years on some kits	Lifetime warranty applies to the original purchaser only.
SSDs	3 Years or 5 Years depending on model	Warranty ends at the earlier of the time period or the manufacturer's endurance limit (TBW).
Power supplies (PSU)	5 Years on Corsair, Thermaltake and Antec models; 1 Year on T-Wolf models	Burn marks or damage from overload or power surge are excluded.
Casings (PC cases)	1 Year	Covers fans, LEDs, ports and structural defects. Glass panel breakage is excluded.

Category	Typical warranty period	Notes
Monitors	3 Years	Panel defects follow the dead pixel rules in Section 6.7.
Laptops	2 Years on Acer, MSI and ASUS models; 1 Year on HP, Lenovo and Apple models	Battery and charger have shorter coverage (Section 6.8).
Keyboards	2 Years on most models; 1 Year on a few models	Key wear and keycap fading are excluded.
Mice	2 Years on most models; 3 Years on selected Logitech models	Wear of mouse feet, buttons and cables is excluded as normal wear.
UPS	2 Years on most models; 1 Year on Dahua models	Battery coverage is shorter (Section 6.10).

4. What Is Covered and What Is Not

4.1 Covered

- Products that fail to power on, boot, display, charge or function because of an internal manufacturing defect.
- Components that fail under normal use within the warranty period, such as a fan failing on a graphics card, a stick of RAM producing errors, or a PSU that stops delivering power under rated load.
- Products that are DOA (reported within 7 days).
- Products that were wrong, incomplete, or damaged on delivery (reported within 48 hours).

4.2 Not covered (exclusions)

- **Physical damage**: cracks, dents, bent or broken pins, bent PCB, broken connectors, broken glass or screen damage caused after delivery.
- **Liquid damage**: spills, humidity, corrosion or any sign of water entry.
- **Electrical damage**: burn marks, damage from power surges, lightning, unstable power, incorrect voltage or use of a non-compliant adapter.
- **Tampering**: opened, repaired, modified or serviced by anyone other than Gentech or an authorised service centre; removed, damaged or altered warranty seals, stickers or serial numbers.
- **Improper use**: installation mistakes, incompatible components, unsupported overclocking or over-volting, modified BIOS or firmware, mining use or other sustained non-standard workloads unless the manufacturer states otherwise.
- **Consumables and wear**: batteries after the battery warranty period, keycaps, mouse feet, cables, thermal paste, dust filters, fan wear caused by dust, cosmetic scratches and fading.
- **Software and data**: operating system, drivers, viruses, data loss and configuration issues.
- **Missing documents**: no invoice or order ID, or a serial number that does not match Gentech's record.
- **Expired warranty**: claims after the warranty period shown on the product page.
- **Natural events**: fire, flood, earthquake and similar events.

> A product found to have an excluded condition during inspection will not be repaired or replaced free of charge. Gentech will explain the finding and may offer a paid repair (see Section 9).

5. Return and Replacement Policy

5.1 Return and replacement windows at a glance

Situation	Time limit (from delivery)	Remedy
Product damaged in transit	Report within 48 hours	Replacement or full refund; Gentech pays return shipping.
Wrong item or missing accessory delivered	Report within 48 hours	Correct item sent or refund; Gentech pays shipping.
DOA (Dead on Arrival)	Report within 7 days	Replacement with a new unit; refund if no stock.
Defect after 7 days, within warranty	Anytime during the warranty period	Repair or replacement under warranty (Section 7).
Change of mind (sealed, unopened)	Request within 3 days	Return for refund; customer pays return shipping; delivery fee not refunded.
Change of mind (opened or used)	Not accepted	Not eligible unless the item is defective.

5.2 Can I return a defective graphics card?

Yes. If a graphics card shows a fault such as no display output, artifacts on screen, crashes or fan failure that is not caused by installation error, physical damage or an unsupported power supply, it is covered. Within 7 days of delivery, report it as DOA to receive a replacement. After 7 days, the card is covered by its full warranty period shown on the product page (3 Years for catalogue graphics cards). Keep the card in its original antistatic bag and box, with all accessories, and register a claim with your order ID and serial number (see Section 7).

5.3 Conditions for returns and replacements

- The product must be in original condition, with all accessories, manuals, cables, packaging and free gifts.
- Original box and antistatic packaging should be kept for at least the first 7 days.
- Serial numbers must match those recorded at the time of sale.
- Gentech may ask for photos or a short video showing the fault.
- Gentech inspects every returned product before approving a replacement or refund.

5.4 Non-returnable items for change of mind

- Opened or installed CPUs, RAM and SSDs.
- Any product with a broken seal, missing serial sticker or missing accessories.
- Items with physical damage or used items.
- Pre-ordered or special-order items once ordered from the supplier.
- Items bought with a clearance label stating "no return".

5.5 Replacement availability

If the same model is in stock, Gentech replaces it with the same model. If it is out of stock, Gentech may offer (a) an equivalent or higher model with no extra charge, (b) a replacement when stock arrives, or (c) a refund of the amount paid, or store credit of the amount paid plus a 3 percent bonus if the customer chooses store credit.

6. Product-Specific Warranty Notes

6.1 Processors (CPUs)

Covered for manufacturing defects only. Bent or broken pins (on socketed CPUs), burnt contacts, chipped or cracked heat spreader, scratches on pads and damage from overclocking beyond manufacturer specification are not covered. Verify socket and memory compatibility with your motherboard before installing; a CPU that does not fit or boot because of incompatibility is not defective.

6.2 Motherboards

Bent socket pins, burnt VRM or components, cracked PCB, damaged PCIe or RAM slots, failed BIOS flash caused by user and liquid damage are excluded. Please update the BIOS only according to the manufacturer's instructions. If a board is DOA, report within 7 days with a short video showing the boot attempt.

6.3 Graphics cards

Covers fan failure, display faults, artifacts, instability at stock settings and power-delivery faults. Excluded: burnt 12V-2x6 or 8-pin connectors from poorly seated cables, modified BIOS, cooler removal, and mining or sustained abnormal use unless the manufacturer states otherwise. Use a power supply that meets the card's recommended wattage.

6.4 RAM (memory)

Most RAM kits carry a lifetime warranty (original purchaser only). Excluded: physical damage, bent or burnt contacts, and overclocking beyond manufacturer-rated profiles (XMP and EXPO profiles are supported). For kits sold as a pair, if one module is faulty, Gentech replaces the full kit to keep modules matched.

6.5 SSDs

Warranty ends at the earlier of the warranty years or the manufacturer's endurance rating (TBW, terabytes written). Gentech is not responsible for data stored on any device. Back up your data before sending a drive for service; the drive may be formatted or replaced.

6.6 Power supplies (PSU)

Covers failure to deliver rated power, fan failure and protection circuit faults under normal use. Excluded: burn marks, damage from overload beyond the rated wattage, liquid damage and surge damage. Modular cables from a different PSU model must not be used; damage caused by incompatible cables is excluded. If a PSU failure damages other components, Gentech's liability is limited to the PSU itself.

6.7 Monitors

Covers panel, backlight, power board and input faults. Dead or stuck pixels are assessed under the manufacturer's pixel policy. As a general rule, a monitor qualifies for replacement if it has three or more permanently bright sub-pixels, or five or more dead pixels in total, or any cluster of defective pixels near the centre of the screen. Cracked panels, pressure marks, image retention from static images and damaged stands are excluded.

6.8 Laptops

The laptop body carries the period shown (1 or 2 years depending on brand). The battery is covered for 6 months and the charger for 1 year. Excluded: keyboard spills, cracked screens or casing, hinge damage from misuse, operating system and software problems, and battery capacity loss through normal ageing.

6.9 Keyboards and mice

Covers switch failures, non-working keys or buttons, sensor or receiver failure and USB faults. Excluded: key wear, keycap shine and fading, mouse feet wear, cable wear caused by pulling or bending, liquid damage and battery leakage in wireless models.

6.10 UPS

The unit is covered for the period shown (1 or 2 years). The internal battery is covered for 1 year or the unit warranty, whichever is shorter. Excluded: batteries damaged by deep discharge, overload beyond the rated load capacity (shown as watts on the product page), burnt output sockets, and liquid damage.

6.11 Casings (PC cases)

Covers faulty pre-installed fans, LED or ARGB controllers, front panel ports, and structural manufacturing defects. Excluded: tempered glass breakage, bent panels, scratches, rust from moisture, and damage caused by installing oversized parts.

7. How to Make a Warranty or Service Claim

7.1 Step-by-step claim procedure

1. **Check eligibility.** Confirm that the product is within the warranty period shown on the product page or invoice and has no excluded condition.
2. **Register a claim.** Use the "Request Service" option under My Orders on the website or app, call the Gentech hotline, or email support. You receive a claim ticket number (WS-YYYY-NNNNN).
3. **Provide required details.** Order ID, product name or SKU, serial number, description of the fault, and clear photos or a short video where relevant.
4. **Verification.** Gentech verifies the warranty and responds within 1 business day, confirming whether the claim is accepted for inspection.
5. **Hand over the product.** Bring it to the Gentech store and service centre, or book a courier pickup. Pack the product in its original box or sturdy protective packaging.
6. **Inspection and diagnosis.** Standard diagnosis takes 3 to 7 business days from receipt.
7. **Resolution.** Gentech repairs, replaces or refunds the product, or explains in writing why the claim is not covered.
8. **Collection or delivery.** You are notified by SMS and email; collect the product from the store or receive it by courier.

7.2 Required documents and information

Item	Why it is needed
Invoice or order ID	Proves purchase and warranty start date.
Product serial number (S/N)	Matches the product to the sale record. Missing or altered numbers may void warranty.
Original packaging and accessories	Required for DOA and replacement claims within the first 7 days; strongly advised afterwards.
Photos or video of the fault	Speeds up verification and is required for damaged-on-delivery claims.
Valid ID (NID, passport or driving licence)	Needed when collecting a product in person; authorised representatives need a signed letter and a copy of the owner's ID.
Contact phone and address	To keep you updated and to arrange return delivery.

7.3 Claim conditions

- The claimant must be the original purchaser or a new owner with the original invoice.

- Warranty stickers and serial numbers must be intact.
- Remove personal data, passwords and locks (for example, device-lock accounts) before handing over laptops and storage devices.
- Gentech and the service centre are not liable for data loss or software on the device.
- Claims must be submitted within the warranty period; claims registered before expiry are processed even if the diagnosis finishes after expiry.

7.4 Service timelines

Stage	Standard timeline
Claim verification	Within 1 business day
Diagnosis at Gentech service centre	3 to 7 business days
In-house or local repair	7 to 15 business days
Manufacturer or importer service	15 to 30 business days (depending on parts availability)
Replacement from stock	2 to 5 business days after approval
Notification of non-covered finding	Within 2 business days of diagnosis

If a claim takes longer than 30 days, Gentech will contact you with an update at least every 7 days and may offer a replacement or refund.

7.5 Repeated failures

If the same product fails for the same fault after three repair attempts within the warranty period, Gentech will replace the product with a new or equivalent item, or refund the amount paid at the customer's choice.

8. Damaged or Defective Product Policy

8.1 Product damaged or wrong on delivery

- Check the outer box before signing. If the box is visibly crushed, torn or wet, refuse delivery or note the damage on the courier receipt.
- Report the issue within 48 hours of delivery through the website, hotline or email, attaching photos of the box, label and product. An unboxing video is the best evidence.
- Gentech arranges a free pickup and sends a replacement or refund after confirmation. Courier claims are handled by Gentech.

8.2 Defective product within 7 days (DOA)

Report the fault with the order ID, serial number and a short video. After approval, Gentech replaces the unit with a new one or, if the model is unavailable, offers an equivalent product or a refund. Return shipping is paid by Gentech for confirmed defects.

8.3 Defective product after 7 days but within warranty

The product is repaired or replaced under the warranty process in Section 7. A refund is considered only if repair and replacement are not possible.

8.4 Who pays for shipping

Case	Who pays shipping
Damaged or wrong item on delivery	Gentech pays both ways.
Confirmed defect (DOA or within warranty)	Customer sends the item to Gentech at own cost for warranty claims after 7 days; Gentech pays return delivery to the customer. For DOA, Gentech pays both ways.
Change of mind return	Customer pays return shipping; original delivery fee is not refunded.
Claim rejected (not covered)	Customer pays return delivery of the product.

9. Out-of-Warranty Service and Fees

- Products with expired warranty, or with excluded damage, can be sent for paid repair on request.
- A diagnosis fee of BDT 300 applies and is waived if the repair is accepted. Repair price depends on parts and is quoted before work starts.
- Repairs carry a 30-day service warranty on the replaced part.
- Unclaimed products are held for 30 days after notification. Gentech then sends a final notice, and after a further 30 days may dispose of the product to recover storage and repair costs.

10. Claim Decisions, Complaints and Contact

If a claim is rejected, Gentech gives the reason in writing within 2 business days of diagnosis, with photos if possible. You may request a second inspection within 7 days of the decision. Escalations go to the Customer Care Manager, who responds within 3 business days.

Channel	Details
Hotline	+880 1700-000000 (Saturday to Thursday, 10:00 to 20:00 BST)
Email	support@gentech.example
Website and app	My Orders > Request Service (24/7)
Store and service centre	Gentech Store, Dhaka. Open Saturday to Thursday, 10:00 to 20:00; closed on Fridays and public holidays.

11. Frequently Asked Questions

Returns and replacements

Q: Can I return a defective graphics card?

A: Yes. Within 7 days of delivery report it as DOA for a replacement. After 7 days it is covered under the 3-year warranty shown on the product page. Register a claim with your order ID and serial number, and keep the box and accessories.

Q: My product stopped working on day 5. What can I do?

A: Report it as DOA within 7 days. Provide the order ID, serial number and a short video of the fault. Gentech will replace it with a new unit, or offer an equivalent or a refund if the model is out of stock.

Q: I received a damaged parcel. What should I do?

A: Report within 48 hours with photos or an unboxing video. Gentech arranges free pickup and sends a replacement or refund.

Q: I received the wrong item. Can I exchange it?

A: Yes. Report within 48 hours. Gentech sends the right item and picks up the wrong one at no cost.

Q: Can I return a product because I changed my mind?

A: Only if it is sealed and unopened, and the request is made within 3 days of delivery. You pay return shipping and the delivery fee is not refunded. Opened CPUs, RAM and SSDs cannot be returned for change of mind.

Q: Can I return an opened CPU or RAM that I do not need?

A: No, opened CPUs, RAM and SSDs are not eligible for change-of-mind returns. They can only be returned if defective.

Q: What if the exact product is out of stock when it is time to replace it?

A: Gentech offers an equivalent or better product, a replacement when stock arrives, a refund of the amount paid, or store credit with a 3 percent bonus.

Q: Is a refund possible instead of replacement?

A: Only if replacement or repair is not possible, or after repeated failed repairs. Otherwise the remedy is repair or replacement.

Warranty periods and coverage

Q: How long is the warranty on my product?

A: The period is on the product page in the warranty field and on your invoice. Typical periods: CPUs 3 years, graphics cards 3 years, monitors 3 years, most motherboards 3 years, SSDs 3 or 5 years, power supplies 5 years (1 year on T-Wolf), laptops 1 or 2 years, casings 1 year, keyboards and mice 2 or 3 years, UPS 1 or 2 years, most RAM lifetime.

Q: When does my warranty start?

A: On the delivery date, or the invoice date if you collected it from the store.

Q: Is the warranty transferable if I sell the product?

A: Yes, with the original invoice and the product, except lifetime warranties.

Q: What does lifetime warranty on RAM mean?

A: It lasts while the original purchaser owns the product, within the manufacturer terms. It excludes physical damage and overclocking beyond rated profiles.

Q: Does warranty cover physical damage or liquid spills?

A: No. Physical damage, liquid damage, burn marks and tampering are excluded.

Q: Is a bent CPU pin or motherboard socket pin covered?

A: No. Bent pins are physical damage and are not covered.

Q: Is damage to my other components covered if my PSU fails?

A: No. Gentech's responsibility is limited to the PSU itself.

Q: Does warranty cover my laptop battery?

A: The battery is covered for 6 months and the charger for 1 year, regardless of the laptop warranty.

Q: Is my UPS battery covered for the full UPS warranty?

A: The battery is covered for 1 year or the UPS warranty period, whichever is shorter.

Q: Is my SSD covered if it wears out?

A: Warranty ends at the earlier of the years shown or the manufacturer's TBW endurance limit.

Q: What counts as a dead pixel defect on a monitor?

A: As a general rule, three or more permanently bright sub-pixels, five or more dead pixels in total, or a cluster near the centre of the screen. The manufacturer's pixel policy is also considered.

Q: Does warranty cover mining or heavy 24/7 use?

A: Not unless the manufacturer's terms allow it. Sustained abnormal use is excluded.

Q: If I replace the thermal paste or clean my GPU, do I lose warranty?

A: Removing the cooler or breaking a warranty seal can void warranty. Light external dust cleaning is fine. If unsure, contact Gentech first.

Claims, documents and process

Q: How do I make a warranty claim?

A: Use Request Service under My Orders, call the hotline or email support, then bring or send the product. You receive a claim ticket number.

Q: What documents do I need?

A: Invoice or order ID, product serial number, photos or video of the fault, and valid ID if collecting in person. Original packaging is required for DOA and replacement within 7 days.

Q: I lost my invoice. Can I still claim?

A: If you bought from your Gentech account, your order ID is in My Orders and works as proof. For store purchases, Gentech can look up the sale by phone number and serial number. Without any record, the claim may be rejected.

Q: The serial number sticker is peeled off. Is warranty void?

A: Missing or altered serial numbers can void warranty. Contact Gentech; if the serial can be verified from sale records the claim may still be accepted.

Q: How long will repair take?

A: Diagnosis takes 3 to 7 business days. In-house repair takes 7 to 15 business days. Manufacturer service takes 15 to 30 business days.

Q: Can someone else submit or collect my claim?

A: Yes, with a signed authorisation letter and a copy of the owner's ID. They must bring the invoice or order ID.

Q: Who pays for shipping my product to the service centre?

A: For warranty claims after 7 days, you pay to send it and Gentech pays return delivery. For DOA and damaged or wrong delivery claims, Gentech pays both ways.

Q: Will my data be safe during service?

A: Gentech cannot guarantee data. Back up and remove personal data first; storage devices may be erased or replaced.

Q: What if my claim is rejected?

A: Gentech gives a written reason within 2 business days. You can request a second inspection within 7 days.

Q: What happens if the same product fails again after repair?

A: After three repairs for the same fault within warranty, you can choose a replacement or refund.

Q: Will I get a loan or substitute product while mine is being repaired?

A: Gentech does not provide loan products by default, but may offer one on a case-by-case basis.

Q: What if I do not collect my product after service?

A: It is held for 30 days after notification, then a final notice is sent. After a further 30 days Gentech may dispose of it to recover costs.

Q: Where can I find the manufacturer's manual for my product?

A: See the manual or datasheet from the brand's website, or ask Gentech support for the supported model information.
